PROFESSIONAL SUMMARY

4-year B.Tech Computer Science student specializing in AI/ML with hands-on experience in Machine Learning, Python development, SQL optimization, and backend API integration. Built scalable applications using Flask and Django, and developed ML-based projects for predictive analytics and data-driven solutions. Skilled in data preprocessing, model training, RESTful API development, and working with large datasets using MS SQL Server. Strong foundation in Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), statistics, and end-to-end AI/ML project development, with exposure to automation tools and real-time software systems.

EDUCATION

Bachelor of Technology in Computer Science

Maharishi Markandeshwar University, Mullana, Ambala

Sep 2023 - May 2027

TRMP High School, Ghorasahan Bihar

BSEB – Intermediate (I. Sc)

Mar 2021 – Mar 2023

SKILLS

Programming Languages: Python, Java, SQL, HTML, CSS, JavaScript (Basic)

Tools & Platforms: Git, GitHub, Linux (Ubuntu), Shell Scripting, VS Code, Google Colab, Jupyter Notebook

Frameworks & Libraries: TensorFlow, NumPy, Pandas, Matplotlib, Flask, Django

Database & Cloud: MySQL, MS SQL Server, Google Cloud Platform (Familiar)

Core CS Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS

Domains & Techniques : Artificial Intelligence (AI), Machine Learning, Computer Vision, Natural Language Processing (NLP), Query Optimization, Data Analysis, and Predictive Modeling.

EXPERIENCE

Infowiz Software Solutions — Data Science Trainee

Jul 2024 – Sep 2024

- Built ML models using TensorFlow and Scikit-learn with up to 94% accuracy.
- Processed structured datasets using Pandas and NumPy for training.
- Visualized model performance using Matplotlib for analysis and reporting.

Code Clause Services Pvt Ltd — Artificial Intelligence Intern

May 2025 – Jul 2025

- Built ML/DL models using TensorFlow, Keras, and Scikit-learn.
- Performed data preprocessing, feature engineering, and model evaluation.
- Worked on AI-based predictive analytics and classification tasks

Prodigy InfoTech — Machine Learning Intern

Aug 2025 – Nov 2025

- Developed CNN-based image classification models using Python.
- Conducted EDA and preprocessing using NumPy, Pandas, and Matplotlib.
- Improved model performance through data cleaning and optimization techniques.

Skyline Technologies — AI/ML Intern

Jan 2026 – Mar 2026

- Developed machine learning models for prediction and classification tasks.
- Worked with datasets using Python, Pandas, and Scikit-learn.
- Applied preprocessing and model optimization techniques for better accuracy.

PROJECTS

Face Recognition System <i>Python, OpenCV, Deep Learning</i> • Built a real-time face recognition system with 90%+ accuracy. • Enabled live camera-based face detection and identification using OpenCV. • Applied deep learning techniques for image processing and recognition. •	<i>Dec 2024</i>
Breast Cancer Detection <i>Python, Machine Learning, TensorFlow</i> • Developed a classification model achieving 94% accuracy. • Predicted malignant vs benign tumors using ML algorithms. • Performed data preprocessing, model training, and evaluation. •	<i>May 2025</i>
Leaf Disease Detection <i>Python, CNN, TensorFlow</i> • Designed a CNN model with 92% accuracy for plant disease detection. • Classified healthy and diseased leaves using image datasets. • Implemented image preprocessing and model optimization techniques.	<i>Dec 2026</i>
Sign-Link – Sign-to-Speech Translator <i>Python, OpenCV, TensorFlow</i> • Developed a CNN-based model to convert sign language into speech. • Achieved 85% accuracy using deep learning and computer vision techniques. • Integrated OpenCV for gesture detection and real-time translation.	<i>May 2026</i>

ACHIEVEMENTS AND CERTIFICATIONS

- Qualified GATE 2026 – Data Science & Artificial Intelligence**
- Appeared for GATE 2026 (DA – Data Science & Artificial Intelligence)
- Alpha (DSA with Java) certification from Apna College.**
- Data Structures & Algorithms (DSA): Including Arrays, Linked Lists, Trees, Graphs, and Dynamic Programming
